EXPLANATORY NOTES

The foregoing index covers Volume XVIII of STEAMBOAT BILL, or all issues for 1961. Page numbering and serial numbers follow:

Spring 1961	Vol. XVIII	No. 77	1 - 32
Summer 1961	Vol. XVIII	No. 78	33 - 64
Fall 1961	Vol. XVIII	No. 79	65 - 96
Winter 1961	Vol. XVIII	No. 80	97 - 128

SUBJECTS & TITLES: This is the first part of the index and includes the names of books reviewed, steamship companies, and principal bodies of water.

AUTHORS: This is the second part and is limited to authors of STEAMBOAT BILL articles and editors of regular sections.

VESSELS: This is the third part and includes all vessels mentioned in the text with the page number of each reference.

Vessels which have had more than one name are treated as follows:

- 1) Listed by every name appearing in the text.
- 2) If the original name does not appear in the text, it is listed if it is known to the indexer.
- 3) Entries under an original name list all subsequent names given in the text, plus any other subsequent names known to the indexer. As a helpful aid, that includes subsequent names after the year (1961) of this volume index.
- 4) Under the original name are listed all page references to the vessel by all names.
- 5) Subsequent names are listed only when the name

appears in the text. Such entries give the original name as cross reference, but only the page or pages on which the subsequent name appears.

The history of each vessel as given in STEAMBOAT BILL has been accepted for indexing purposes, and no additional research has been attempted.

The official number, country of ownership, date built, body of water on which operated, or similar information has been included in the index as an aid in identifying the vessels mentioned.

Abbreviations and symbols used in the VESSELS index include these:

a, b, c, etc. before the name indicates sequence of names for the same vessel, with a the earliest.

blt. before a date indicates building date.

c- before a number indicates a Canadian official number.

c. before a year indicates that the vessel was in service on or about that year.

CSN indicates a Confederate vessel.

CSS ditto.

* before a page number indicates an illustration on that page.

underlining

indicates a correction of spelling or other error in the text.

unprefixed numbers,

usually of six digits, are U. S. official numbers.

This index to Volume XVIII of STEAMBOAT BILL, covering the year 1961, has been prepared by the Steamship Historical Society of America, Inc., 414 Pelton Avenue, Staten Island, New York 10310.

Established in 1935 as a means of bringing together amateur and professional historians interested in the development of steam navigation, and those persons interested generally in all self-propelled vessels, the Steamship Historical Society has members both throughout the United States and in many foreign countries.

The Society has its own extensive library and collection of marine material, holds regular national meetings at places of marine interest, maintains a Photobank of about 20,000 photographs and, besides STEAMBOAT BILL, publishes occasional books and pamphlets.

Anyone seriously interested in steam or other power-driven vessels is eligible for membership and may obtain full details about the Steamship Historical Society of America, Inc., by writing the secretary:

MRS. ALICE S. WILSON, 414 PELTON AVENUE, STATEN ISLAND, NEW YORK 10310
